

Marco Satta

DIRECTOR HSEQ

Born in 1973, Marco Satta holds a degree in Environmental and Land Engineering from the University of Bologna and a Master's in General Management from Bocconi University in Milan.

He worked for Montefibre in 1999 to develop and implement the management system in order to achieve environmental certification in an acrylic fibre production plant.

He has held various positions at Saipem in the Health, Safety and Environment (HSE) function since 2001. He started as an HSE system engineer working on vessels and offshore plants both for drilling and construction and coordinated the work to obtain certification for the company and the fleet in accordance with the SOLAS ISM code. Subsequently he held positions in E&C Offshore projects in Far East Asia, from Sakhalin to Papua and from Taiwan to Australia, until he was appointed HSE Manager, first at Saipem Indonesia and then throughout the AsiaPacific region with Saipem Singapore. He returned to Europe in 2009 where he held various positions including HSE Manager of the Offshore Business Unit. He was appointed Director of QHSE&S of Saipem SA in Paris in 2011 until 2015 where he also managed quality and sustainability issues while also being responsible for Onshore projects, Maritime Works and the Floaters business line.

In March 2017 he was appointed Director of Health, Safety and Environment of Saipem SpA.
