SAIPEM PROJECT MANAGEMENT CONSULTANCY AND SERVICES

Engineering your Vision,
Delivering Excellence

SAIPEM

MASTERING COMPLEXITY, DELIVERING VALUE
YOUR TRUSTED PMC PARTNER

Saipem Project Management Consultancy (PMC) stands as your strategic partner in navigating the complexities of today's energy and infrastructure projects.
Born from a world-leading EPC and O&M contractor, our PMC Business services offer unparalleled insights and a proven track record in delivering certainty, from concept to full asset potential and beyond.

Our mission is to empower your investments. We leverage Saipem's unique DNA – decades of hands-on experience in designing, building, and operating some of the world's most challenging projects – to provide innovative PMC solutions. We are committed to reducing your investment costs, accelerating time-to-market, and exceeding your expectations in quality, safety, and performance.

YOUR PMC ADVANTAGE: SAIPEM EXPERTISE

Our experience as an EPC and O&M leader gives us a practical understanding of every project dimension, helping us spot critical issues early and handle them with precision.

FIELD-BORN EXPERTISE ACROSS ALL PROJECT FACETS

Pragmatic Solutions

We anticipate and resolve challenges before they even emerge.

Risk Mitigation

We manage risks through hands-on execution and field experience.

Seamless Integration

We ensure smooth transitions among all project phases.

Lifecycle Value

We focus on long-term operational excellence and asset integrity from day one.

IDENTIFYING AND HANDLING KEY CHALLENGES

In-Depth Business Knowledge

Direct field experience reveals project strengths, weaknesses and critical nuances.

Effective Problem Management

Practical know-how enables faster, smarter responses to real issues.

Trustworthy Communication

First-hand experience strengthens credibility with partners and providers.

Informed Decision-Making

Hands-on insight leads to more aware and confident decisions.

ROOTED IN QHSE & SUSTAINABILITY

*At Saipem, **QHSE** stewardship is a core value embedded in our culture. Our PMC services are delivered with an absolute commitment to protecting people, assets, and the environment.*

WE CHAMPION A PROACTIVE SAFETY CULTURE, REINFORCED BY:

Advanced Systems

Leveraging AI-powered tools and digital platforms for enhanced HSE monitoring and predictive analytics.

Continuous Improvement

A lessons-learned approach to consistently refine our practices.

Global Standards

Adherence to the highest international QHSE standards and certifications.

Sustainability at the Core

Saipem is dedicated to supporting your ESG objectives. Our PMC solutions integrate sustainable practices, energy efficiency, and decarbonization strategies to help you build assets that are profitable, environmentally sound, and socially responsible.

FULL-LIFECYCLE PMC SERVICES

Saipem PMC offers a holistic suite of integrated services, guiding your projects with expertise and precision at every stage. We ensure technical excellence, strategic oversight, and optimized lifecycle value, from initial concept through to responsible decommissioning.

Feasibility Studies

Rigorous technical and economic analysis for solid investment decisions.

PMC of FEED

Expert oversight for robust, cost-effective, and constructible designs.

Owner's Engineering

Acting as your trusted technical advisor to safeguard your interests and ensure design integrity.

PMC of EPC Execution

Comprehensive management of scope, cost, schedule, and risk for on-time, on-budget delivery.

PMC of Commissioning & Startup

Meticulous oversight for a safe, efficient, and timely plant startup.

Asset Integrity Management (AIM)

Proactive strategies to ensure the safety, reliability, and longevity of your assets.

O&M Management

Best-in-class practices to enhance efficiency, reduce OPEX, and maximize uptime.

Turnaround Management

Expert planning and execution of plant shutdowns and modifications.

PMC of Decommissioning

Safe, compliant, and cost-effective management of asset retirement.

WHY PARTNER WITH US?

MAXIMIZE ASSET VALUE WITH EXPERT-DRIVEN PERFORMANCE SOLUTIONS.

Choosing Saipem PMC means partnering with a team that brings more than just consultancy; we bring the strength of a global EPC and O&M leader, dedicated to your success.

Unmatched EPC & O&M Expertise

Decades of experience from complex global projects. Our vast repository of lessons learned informs every recommendation.

Global Reach, Local Execution

Strategic execution centers and over 6,700 engineering and project management specialists ready to mobilize worldwide.

Client-Centric Approach

We build long-term relationships by understanding your unique challenges, offering flexibility, accountability, and strategic support.

Integrated & Scalable Teams

Lean, tailored, and cost-effective PMC teams, assembled from our global talent pool to deliver superior value.

WHY PARTNER WITH US?

DRIVING INNOVATION & EFFICIENCY.

Saipem PMC is at the forefront of integrating cutting-edge technologies and innovative methodologies to enhance project delivery and asset performance.

Technology Leadership

With over **2,500 patents**, we have unique expertise across conventional and energy transition technologies, including Green/Blue Ammonia, Hydrogen, and Carbon Capture (CO_2 Solutions by Saipem).

Value-Driven Processes

Our project management philosophy emphasizes a decision-driven approach, applying international best practices to deliver results efficiently.

Digital Transformation in PMC

We harness the power of digital for unparalleled efficiency and insight:

- **Digital Twins:** advanced 3D immersive platforms for plant design, monitoring and management, a benchmark in the O&G industry.
- **AI & Machine Learning:** used in project management, O&M optimization, predictive maintenance and HSE improvements.
- **IoT & Robotics:** real-time asset tracking and safer, more efficient inspections via drones (e.g., Hydrone) and remote systems.

WHY PARTNER WITH US?

SPECIALIZED SERVICES TO SAFEGUARD, SUSTAIN AND ELEVATE YOUR ASSETS.

Saipem PMC extends beyond traditional project management to offer specialized services that ensure your assets perform optimally, safely, and sustainably throughout their operational life.

Asset Integrity Management (AIM)

- Risk-Based Inspection (RBI) & Reliability-Centered Maintenance (RCM).
- Predictive Maintenance and condition monitoring to prevent failures.
- Structural monitoring and life extension studies.
- CMMS Implementation & Optimization improves maintenance via digital systems.
- Digital Twin & Condition Monitoring supports prediction with real-time models.

O&M Management Excellence

- OPEX reduction and uptime maximization.
- Energy efficiency and GHG emissions reduction strategies.
- Comprehensive training and competence assurance programs.
- Turnaround management ensures efficient shutdown planning and execution to reduce downtime and enable safe restarts.

Decommissioning Services

- Our PMC offering for decommissioning ensures that asset retirement is planned and executed safely, responsibly, and with optimized costs.
- We manage the entire decommissioning lifecycle, from technical planning to on-site execution, providing seamless project coordination.
- Leveraging Saipem's extensive field expertise, we ensure full compliance with environmental and regulatory standards throughout the process.

SAIPEM

Partner with Saipem PMC to unlock the full potential of your investment. We are more than consultants; we are your dedicated partners in engineering your vision and delivering enduring value.

Our unique blend of EPC heritage, innovation, and global expertise makes Saipem PMC the ideal choice to reduce your investment costs, accelerate time to market, and ensure the highest standards of quality, safety, and sustainability.

Let's build the future of energy and infrastructure, together.
