

# CASTORONE

#### PIPELAYING DP 3 VESSEL

# **VERSATILITY**

S-LAY FROM SHALLOW TO ULTRA-DEEP WATERS

# **CAPABILITY**

DEPLOYMENT OF INLINE SPECIAL STRUCTURES UP TO 3,000 M WD

### RELIABILITY

DP 3, ICE-CLASS, HELIDECK

#### **TECHNICAL SPECIFICATIONS**

#### **MAIN FEATURES**

- Length overall (excluding ramp/stinger): 325 m
- Moulded breadth: 39 m
- Operational draft: min. 9.5 m, max. 10.6 m
- Transit draft: 10 m approx.
- Height (keel to top of mast crane pedestal): 67.5 m
- Gross tonnage: 102,032 t
- Max. speed: 14 kn
- Pipelaying capacity: triple joint 12 m or double joint 18 m
   Pipe size up to 48" (60" including coating)

#### CLASSIFICATION

■ American Bureau of Shipping (ABS) ★A1, Crane Service, Pipe Laying Service, ©, ★AMS, ★ACCU, ★DPS-3, (EHS-P), CRC, ENVIRO, HELIDK (SRF), Ice class A0, Ice class IA, PMP+, RRDA, TCM, UWILD

#### **PROPULSION SYSTEM**

- Main gensets: 8x 8,400 kW at 600 rpm each
- Emergency generator: 1,200 kW
- Power distribution: 2 separate switchboards 11 kV
- Main shafts: 2x 8,000 kW with 2 rudders
- Azimuthal retractable thrusters: 6x 92 t
- Bow tunnel thrusters: 2x 35 t
- Stern tunnel thruster: 35 t

#### DYNAMIC POSITIONING

- DP system: fully redundant, Class 3
- Reference system: 2x HIPAP 501 for 3,000 m of water depth; 4x DGPS; 2x Walking Taut Wire

#### **ACCOMMODATIONS**

- Total: 702 persons
- Client offices
- Conference rooms
- Hospital
- 2x gymnasium
- Galley mess room
- Briefing and ladies rooms
- Sauna
- Recreation rooms
- Satellite television

#### **DECK EQUIPMENT**

- Main crane: 600 t @30 m, 350 t @46 m
- Pipe handling cranes: 2x gantry cranes 110 t @ 42 m
- Pedestal crane: 35 t
- Knuckle boom crane: 25 t
- MacGregor crane: 10 t
- S-lay stern ramp: 120 m long hinged stinger composed of 3 articulated and adjustable sections
- Tensioners: 3x 400 t
- A/R winch: 910 t (6" diam. x 4,003 m length)
- Working stations: 4 welding
- + 4 completion
  Triple joint fabrication shop
  below deck
- PLET handling system 150 t 75-90°

#### **CARGO/TANK CAPACITY**

- Deck area: 4,300 m<sup>2</sup>
- Fuel oil: 8.098 m<sup>3</sup>
- Fresh water: 1.400 m³
- Ballast water: 36,000 m³ 20,000 t pipe storage in cargo holds

#### RNVs

- 2x work class ROVs
- Rated for 3,000 m water depth

#### **HELIDECK**

- 12.8 t, 22.2 D-value
- Suitable for Super Puma and Eurocopter, Sikorsky S61N & Sikorsky 92

The flagship of Saipem's fleet, the Castorone is one of the most efficient pipelaying vessels in the offshore industry, due to its high production rate and the capability to lay in shallow to ultra-deep waters in S-lay configuration.

# DID YOU KNOW?

CASTORONE IS ONE
OF THE BIGGEST PIPELAYING
VESSELS IN THE WORLD
AND THE MOST
TECHNOLOGICALLY
ADVANCED
