

Saipem: final update on the cyber-attack suffered

San Donato Milanese (MI), December 17, 2018 - Saipem reports that the restoration activities of the infrastructures hit by the cyber-attack communicated the 10th of December, 2018 have continued according to a tested and consolidated protocol and are near completion.

Saipem also confirms that there has been no theft or loss of data and that, therefore, no hindrance is expected to the prosecution of the ordinary activity.

Saipem is one of the world leaders in drilling services, as well as in the engineering, procurement, construction and installation of pipelines and complex projects, onshore and offshore, in the oil & gas market. The company has distinctive competences in operations in harsh environments, remote areas and deepwater. Saipem provides a full range of services with "EPC" and "EPCI" contracts (on a "turn-key" basis) and has distinctive capabilities and unique assets with a high technological content.
